

TO BE THE BEST AND GET AHEAD, YOU AND YOUR TEAM MUST LEARN FROM THE BEST.

Pivotal180 has redefined the standards for Project Finance and Financial Modeling training, focusing exclusively on teaching, institutional and human capacity building.

PIVOTAL180 DIFFERENCE

The Pivotal180 team have **decades of experience as principal investors and advisors** and have held board positions in multiple companies.

The Senior Instructors, Daniel Gross and Haydn Palliser, both hold **Adjunct Professorships at Columbia University and lecture at Yale University.**

We do not just teach Excel coding like others. You learn how to analyze deals. We teach market structures, policy and incentives, financial modeling, how to read legal documents, and deal management based on real experience.

We tailor courses more than anyone in the market. Learning in context works. Courses are tailored to reflect your business, including incorporation of actual deals, transaction documents, and country-specific tax regime.

Access to online learning platform. All participants in our live courses receive free access to our online learning courses to dive deeper into topics.

Dedicated to training with an experienced training team. We teach over 1,000 students each year and have led teams at General Electric, Goldman Sachs, Corality, and Mazars.

It is not just about modeling in every engagement, we strive to include coaching and mentorship to help our clients deepen their skills and understanding.
